Ummah One — AI Guide Product Plan

Generated from prompt.md · 5 November 2026 · Draft for internal leadership

1. Mission and the 3X goal

Item	Plan
Mission	Grow the Muslim economy **3X by 2034** (7 years from launch in 2027)
Measure	Total GDP of OIC Muslim countries
Reality check	3X in 7 years needs about **17% growth every year**
Our role	3X is the mission. Ummah One does not claim a share; it tracks its own numbers beside it
Areas we grow	Travel and tourism, education, culture, art, food and snacks, clothes and fashion, heritage, music, palaces, Muslim businesses
Money	No revenue planning for now

2. What Ummah One is, and who it serves

- **One AI engine (RAG)** that powers the Ummah One app and also runs as a standalone product.
- Encourages well-to-do Muslims to travel to the **81 Muslim cities**, matched to their preferences.
- Points students to the **18 education cities**. Helps people discover and support **Muslim businesses and artists**.
- Open to everyone, including non-Muslims. Under-18s have full access.
- Mobile app, website and WhatsApp bot. English and Arabic at launch. Voice input later.

Priority	User	What they get
1	Muslim businesses	Free profile: crafts, carpets and calligraphy; modest fashion; art; music and performers; perfume
2	Contributors	Add places and content; earn badges and levels (local guides, artists, businesses, travellers)
3	Families and travellers	City recommendations for every group; women-traveller features from day one
4	Students, from everywhere	Universities in the 18 cities, with estimated fees and living costs
–	Well-wishers	Elders, imams and mosque members who recommend places

3. Product

Part	What it includes	Not included
City pages (81)	Halal food; safety; budget; best season; family- and women-friendly ratings; heritage, palaces and museums; culture, art and music; local food and snacks; clothes, fashion and markets; Muslim businesses; wheelchair and elderly access; events calendar; safety disclaimer on every page	Mosques and prayer times; visas; prices; maps; itineraries; group trips; Umrah add-ons
Labels	**Halal-friendliness** label: Bali, Kotor, Budva, Podgorica, Ohrid. **Removed for safety** (terrorism / extreme violence): Grozny, Makhachkala, Derbent (Russia); Srinagar (India); Erbil (Iraq); Lahore (Pakistan)	–
Businesses and artists	Free listing for now; location and contact; individual artists and craftspeople get profiles; trust grows through verified customer reviews; owners can reply. Music: all music by Muslim artists	Online shop links
Education (18 cities)	All good universities; undergraduate, master's/PhD, medicine, short courses; estimated fees and living costs (estimate); information only	Scholarships; application help
Recommendations	AI asks: budget, month, interests, travel style, number of days (students: field and level). Ranking: **interests and budget, then safety, then heritage and culture, then halal-friendliness**. Always shows **why** and **sources**	–
Feedback and trust	Phone OTP login. Travel reviews need a photo taken at the place. Anonymous reviews allowed. Badges and levels. **The Ummah One team can override anything; user feedback comes second.** No sectarian or political content	Proof of study for university reviews

4. How the RAG works

Trusted sources → Knowledge base → AI guide → User → Verified feedback → team review → back into the knowledge base

- **Sources:** official tourism websites, UNESCO, university websites, QS/THE, team research, verified user reviews and photos, contributor and well-wisher content. No Wikipedia.
- **Answers:** only from the knowledge base, always with sources.
- **Model path:** Claude on the cloud first, then Qwen or Llama on our own servers. The design is model-agnostic.
- **Updates:** content changes when a change is reported.
- **Build:** from scratch with BMAD and Claude Code. AI hosting under $50,000 in year 1.

5. Mosque promotion

Item	Plan
Where	Mosques with average family income **above $60,000** (leadership decides). USA, UK, Canada, Western Europe, Singapore, high-income areas of Pakistan, Malaysia and Indonesia
Start with	Existing contacts: Los Angeles, London, Chicago, Michigan, Kuala Lumpur, Singapore, Kansas
Year-1 target	**50 mosques**
Outreach	Video calls, our own network, elders who know the imams
Inside the mosque	QR posters on notice boards; the mosque's WhatsApp group or newsletter; separate messages for women's and youth groups. Nothing sold inside the prayer hall
Partners	Mosques only. No universities, tourism boards, airlines or halal bodies
Approvals	No scholar approval needed. Mosques get nothing extra

6. Timeline

When	Step
Weeks 1–2 (Nov 2026)	BMAD planning: brief, requirements, architecture. Page templates for cities, universities, businesses and artists
Weeks 3–6 (to mid-Dec)	AI drafts 81 city pages and 18 education cities from approved sources; travel experts review; load into the knowledge base
Weeks 7–10 (to mid-Jan)	App, website and WhatsApp bot; OTP login; photo-checked reviews; badges; team override; English and Arabic
Weeks 11–12 (late Jan)	Test with contact mosques (QR posters, WhatsApp); fix issues
Early Feb 2027	**First version live**
2027	50 mosques; report the six year-1 numbers
2028	Move to our own servers (Qwen or Llama); voice input
2029–2034	Grow mosques across all chosen countries (targets to set); check OIC GDP against 3X every year

7. Year-1 numbers

#	Number	How we measure it
1	Money spent in the 81 cities	Each city's official economic data (tourism revenue, GDP), shown beside our verified trips
2	Muslim businesses listed and visited	Live profiles; verified customer reviews
3	Students who applied to the 18 cities	Users reporting an application
4	Verified reviews	OTP login plus a photo
5	Active users	Monthly active users across app, web and WhatsApp
6	Verified trips taken	Trips confirmed by a photo review

8. The 81 travel cities

[H] = halal-friendliness label

Region	Cities
Middle East and Gulf (18)	Dubai, Abu Dhabi, Sharjah, AlUla, Jeddah, Riyadh, Abha, Al Ahsa, Doha, Muscat, Salalah, Manama, Kuwait City, Amman, Aqaba, Baku, Ganja, Dammam
Türkiye (13)	Istanbul, Cappadocia/Göreme, Antalya, Bodrum, Pamukkale, Fethiye, Izmir, Trabzon, Bursa, Marmaris, Alanya, Konya, Ankara
Balkans (11)	Kotor [H], Budva [H], Mostar, Sarajevo, Ohrid [H], Skopje, Tirana, Prizren, Pristina, Podgorica [H], Tetovo
North Africa (12)	Marrakesh, Essaouira, Cairo, Sharm El Sheikh, Hurghada, Alexandria, Tangier, Rabat, Casablanca, Tunis, Djerba, Sousse
Central Asia (10)	Samarkand, Bukhara, Almaty, Tashkent, Khiva, Astana, Bishkek, Turkistan, Dushanbe, Shymkent
Southeast and South Asia (9)	Bali [H], Langkawi, Kuala Lumpur, Penang, Yogyakarta, Baa Atoll, Malé, Hunza Valley, Skardu
East Africa (1)	Zanzibar City / Stone Town
Thailand (2)	Satun, Koh Lanta
India (4)	Kozhikode, Lakshadweep, Hyderabad, Lucknow
Russia (1)	Kazan

Corrections before publishing:

- Lucknow is about 26% Muslim (city, 2011 census), not 40%.
- Hyderabad is about 30% (city) and 43% (district).
- Satun is 68–77% Muslim, depending on the source.
- No verified figure was found for Koh Lanta.

9. The 18 education cities (ranked)

#	City	Flagship institutions
1	Kuala Lumpur	Universiti Malaya (QS 2026: 58th; QS 2027: 56th)
2	Istanbul	ITU, Boğaziçi, Istanbul University, Koç, Sabancı
3	Riyadh	King Saud University, Princess Nourah University
4	Dhahran / Dammam	KFUPM (QS 2026: 67th)
5	Ankara	METU, Bilkent
6	Doha	Education City (Weill Cornell Medicine–Qatar, Texas A&M at Qatar), Qatar University
7	Abu Dhabi	Khalifa University, NYU Abu Dhabi
8	Penang	Universiti Sains Malaysia
9	Cairo	Cairo University, Ain Shams University
10	Astana	Nazarbayev University (THE 2026: 401–500), Astana Medical University
11	Almaty	Al-Farabi KazNU, Kazakh National Medical University
12	Dubai	MBRU, Dubai Medical College, branch campuses
13	İzmir	IZTECH, Ege University
14	Amman	University of Jordan, JUST
15	Baku	Baku State University, Azerbaijan Medical University
16	Alexandria	Alexandria University
17	Tashkent	National University of Uzbekistan, Tashkent Pediatric Medical Institute
18	Rabat	Mohammed V University

10. Watch-outs

- **3X is very hard:** about 17% growth every year for 7 years. Present it as the mission, with our own numbers beside it.
- **No education or heritage experts in the team:** have outside experts check the education and heritage pages before launch.
- **Children:** under-18s have full access, but US law (COPPA) requires blocking under-13s or getting parental consent (to verify with a lawyer).
- **Minimal GDPR** still means consent, a privacy policy and data deletion: a legal minimum in the UK and EU.
- **Stale information:** pages update only when someone reports a change. Keep the safety disclaimer on every page.
- **3 months is tight** for an app, a website, a WhatsApp bot and 105 pages. If time runs short, launch the website and WhatsApp first.
