UMMAH ONE — AI Guide Product Plan

One AI engine (RAG) that sends Muslim travel, study and spending to 87 Muslim cities, 18 education cities, and Muslim businesses and artists.

1. Mission

Item	Decision
Mission	Help grow the Muslim economy **3X by 2034** (7 years from launch in 2027)
Measured as	Total GDP of the OIC Muslim countries. Baseline: the 2027 figure from IMF data
What it takes	3X in 7 years means about **17% growth every year**. It is our mission; Ummah One tracks its own numbers beside it
Areas we grow	Travel and tourism, education, culture, art, food and snacks, clothes and fashion, heritage, music, palaces, Muslim businesses
Organisation	A company with a social mission (to be registered). No revenue planning for now

2. What Ummah One is, and who it serves

- **One AI engine** that powers the Ummah One app and can also run as a standalone product.
- Encourages well-to-do Muslims to travel to the 87 cities, matched to their likes and preferences.
- Points students to the 18 education cities. Helps everyone find and support Muslim businesses and artists.
- Open to everyone, including non-Muslims and under-18s. App, website and WhatsApp bot. English and Arabic at launch.

Priority	User	What they get
1	Muslim businesses	Free profile: crafts, carpets and calligraphy; modest fashion; art; music and performers; perfume
2	Contributors	Add places, events and tips; earn badges and levels (local guides, artists, businesses, travellers)
3	Families and travellers	City recommendations for every group (families, young professionals, couples, retirees). Women-traveller features from day one
4	Students	Universities in the 18 cities, with estimated fees and living costs
	Well-wishers	Respected community members (elders, imams, mosque members) who recommend places

3. Product

Part	What it includes	Not included
City pages (87)	Halal food; safety; budget; best season; family- and women-friendly ratings; heritage, palaces and museums; culture, art and music; local food and snacks; fashion and markets; Muslim businesses; elderly and wheelchair access; events calendar; safety disclaimer on every page	Mosques and prayer times; visas; prices; maps; itineraries; group trips; Umrah add-ons
Labels	**Halal-friendliness** label: Bali, Kotor, Budva, Podgorica, Ohrid. **Safety section** with official travel advisories: Srinagar, Grozny, Derbent, Makhachkala, Erbil	
Businesses and artists	Free listing for now; location and contact; individual artists and craftspeople get profiles; trust grows through verified customer reviews; owners can reply. Music: all music by Muslim artists	Online shop links
Education (18 cities)	All good universities; undergraduate, master's/PhD, medicine, short courses; estimated fees and living costs; information only	Scholarships; application help
Recommendations	AI asks: budget, month, interests, travel style, number of days (students: field and level). Ranking: **interests and budget, then safety, then heritage and culture, then halal-friendliness**. Always shows **why** and **sources**	
Feedback and trust	Phone OTP login. Travel reviews need a photo taken at the place. Anonymous reviews allowed. Badges and levels. **The Ummah One team can override anything; user feedback comes second.** No sectarian or political content	Proof of study for university reviews

4. How the AI works (RAG)

Trusted sources	→	Knowledge base	→	AI guide	→	User	→	Verified feedback
Tourism sites, UNESCO, universities, QS/THE, team research, contributors (no Wikipedia)		87 city pages, 18 education cities, businesses, artists, events		Answers only from the knowledge base, with sources		Asks, compares, picks a city or university		Photo-checked reviews; team reviews them, then they go into the base

- **Model path:** Claude on the cloud first, then Qwen or Llama on our own servers. The design is model-agnostic so the switch is easy.
- **Updates:** content changes when a user, contributor or team member reports a change.
- **Build:** from scratch with BMAD and Claude Code. AI hosting under $50,000 in year 1. Voice input later.

5. Promotion: mosques only

Item	Plan
Where	Mosques where average family income is **above $60,000** (leadership decides which qualify). USA, UK, Canada, Western Europe, Singapore, and high-income areas of Pakistan, Malaysia and Indonesia
Start with	Existing contacts: Los Angeles, London, Chicago, Michigan, Kuala Lumpur, Singapore, Kansas
Year-1 target	**50 mosques**
How we reach them	Video calls, our own network, and elders who know the imams
Inside the mosque	QR posters on notice boards (one code per mosque, to count sign-ups); the mosque's WhatsApp group or newsletter; separate messages for women's and youth groups. Nothing sold inside the prayer hall
Message	"Discover the Muslim world: travel to Muslim cities, support Muslim artists and businesses"
Partners	Mosques only. No universities, tourism boards, airlines or halal bodies

6. Timeline

When	Step
Weeks 1–2 (Nov 2026)	BMAD planning: brief, requirements, architecture. City and university page templates
Weeks 3–6 (to mid-Dec)	AI drafts all 87 city pages and 18 education cities from approved sources; travel experts review them; load into the knowledge base
Weeks 7–10 (to mid-Jan)	Website and WhatsApp bot; OTP login; photo-checked reviews; badges; team override console; English and Arabic
Weeks 11–12 (late Jan)	Test with 5 contact mosques (QR posters and WhatsApp); fix issues
Launch: early Feb 2027	Website and WhatsApp bot live before Ramadan (expected about 8 Feb 2027). Mobile app follows by May 2027 (recommended)
2027	50 mosques; report the six year-1 numbers
2028–2029	Move to our own servers; voice input; more languages; more mosques (target to set)
2030–2034	Scale across all mosque countries; yearly check of OIC GDP against the 3X mission

7. Year-1 numbers

#	Number	How we measure it
1	Money spent in the 87 cities	Each city's official economic data (tourism revenue, GDP), shown beside our verified trips
2	Muslim businesses listed and visited	Profiles live; verified customer reviews
3	Students who applied to the 18 cities	Users reporting an application
4	Verified reviews	Reviews with OTP login and a photo
5	Active users	Monthly active users (app, web, WhatsApp)
6	Verified trips taken	Trips confirmed by a photo review

8. The 87 travel cities

[H] = halal-friendliness label · [S] = safety section with official advisories

Region	Cities
Middle East and Gulf (19)	Dubai, Abu Dhabi, Sharjah, AlUla, Jeddah, Riyadh, Abha, Al Ahsa, Doha, Muscat, Salalah, Manama, Kuwait City, Amman, Aqaba, Baku, Ganja, Erbil [S], Dammam
Türkiye (13)	Istanbul, Cappadocia/Göreme, Antalya, Bodrum, Pamukkale, Fethiye, Izmir, Trabzon, Bursa, Marmaris, Alanya, Konya, Ankara
Balkans (11)	Kotor [H], Budva [H], Mostar, Sarajevo, Ohrid [H], Skopje, Tirana, Prizren, Pristina, Podgorica [H], Tetovo
North Africa (12)	Marrakesh, Essaouira, Cairo, Sharm El Sheikh, Hurghada, Alexandria, Tangier, Rabat, Casablanca, Tunis, Djerba, Sousse
Central Asia (10)	Samarkand, Bukhara, Almaty, Tashkent, Khiva, Astana, Bishkek, Turkistan, Dushanbe, Shymkent
Southeast and South Asia (10)	Bali [H], Langkawi, Kuala Lumpur, Penang, Yogyakarta, Baa Atoll, Malé, Hunza Valley, Skardu, Lahore
East Africa (1)	Zanzibar City / Stone Town
Thailand (2)	Satun, Koh Lanta
India (5)	Srinagar [S], Kozhikode, Lakshadweep, Hyderabad, Lucknow
Russia (4)	Kazan, Derbent [S], Makhachkala [S], Grozny [S]

Corrections before publishing:
- Lucknow is about 26% Muslim (city, 2011 census), not 40%.
- Hyderabad is about 30% (city) and 43% (district).
- Satun is 68–77% Muslim, depending on the source.
- No verified figure was found for Koh Lanta.

9. The 18 education cities (ranked)

#	City	Flagship institutions
1	Kuala Lumpur	Universiti Malaya (QS 2026: 58th; QS 2027: 56th)
2	Istanbul	ITU, Boğaziçi, Istanbul University, Koç, Sabancı
3	Riyadh	King Saud University, Princess Nourah University
4	Dhahran / Dammam	KFUPM (QS 2026: 67th)
5	Ankara	METU, Bilkent
6	Doha	Education City (Weill Cornell Medicine–Qatar, Texas A&M at Qatar), Qatar University
7	Abu Dhabi	Khalifa University, NYU Abu Dhabi
8	Penang	Universiti Sains Malaysia
9	Cairo	Cairo University, Ain Shams University
10	Astana	Nazarbayev University (THE 2026: 401–500), Astana Medical University
11	Almaty	Al-Farabi KazNU, Kazakh National Medical University
12	Dubai	MBRU, Dubai Medical College, branch campuses
13	İzmir	IZTECH, Ege University
14	Amman	University of Jordan, JUST
15	Baku	Baku State University, Azerbaijan Medical University
16	Alexandria	Alexandria University
17	Tashkent	National University of Uzbekistan, Tashkent Pediatric Medical Institute
18	Rabat	Mohammed V University

10. Watch-outs

Check these before launch

1. **3X is very hard:** about 17% growth every year for 7 years. Report it honestly as the mission and show our own numbers beside it.
2. **No education or heritage experts in the team.** Have outside experts check the education and heritage pages before launch, as the evaluation step.
3. **Children:** under-18s have full access, but US law (COPPA) requires blocking under-13s or getting parental consent.
4. **Minimal GDPR** still means consent, a privacy policy and deleting data on request, by law in the UK and EU.
5. **Old information:** pages update only when someone reports a change, so safety details can go stale. Keep the safety disclaimer on every page.
6. **3-month launch:** keep version 1 to the website and WhatsApp bot. The mobile app follows.
